

# Shore Meadows Motel & Kayak Lake George

Harry and Patricia Saum - Owners

**Success Magazine: Shore Meadows has been family owned for over fifty years. How has your motel changed since opening in 1954? What elements have and will remain the same?**

Harry Saum: Shore Meadows has been a destination for families for generations. We are continuously making improvements at Shore Meadows to stay competitive with other hotels/motels. We are a family run business that caters to family vacations.

**SM: Why should Shore Meadows be the motel of choice for people seeking an affordable Lake George vacation?**

HS: We are located less than a half mile north of the heart of the village. Guests can park their car here and walk to town for a day or night out, yet we are still

secluded. Shore Meadows is the destination for people who live in the Northeast. Our reasonable rates allow couples or families to enjoy an affordable getaway.

**SM: Why did you decide to branch out and start your own kayak business?**

HS: Shore Meadows is not a chain hotel. To stay competitive with the franchises, I decided to market my lakefront with kayak rentals—it adds another element for our guests to enjoy and gives Shore Meadows more exposure to travelers who would normally stay at the large chain hotels.

**SM: What types of kayaks are available through Kayak Lake George?**

HS: We have single-seat kayaks as well as two-seaters. We also have kayaks designed for fishing.

**SM: What makes Lake George special to you?**

HS: Lake George is a place like no other. It is unique in that it truly has something for everyone. If you were to look for another destination comparable to Lake George's beauty and offerings, I honestly don't know where you would go!
