

Natural Life Healing

William Bassett

damage to my back and neck, had three years of regular migraines, and memory loss forced me to quit college. I was a wreck. Over time I was treated with medications and various therapies, but my body refused to heal.

Ten years after my car accident, I found Bowen Therapy. I was amazed that my body responded with the very first treatment. After two or three treatments I began to be active and do things that I could not do for over a decade. One day I went to the clinic and sat in the waiting room and simply talked to the other clients who were there for therapy. They all had the same type of amazing story. At that point I began to take classes so I could learn how to apply this healing to others.

SM: What is Bowen Therapy and why is it your favorite modality?

WB: It is a unique therapy. By lightly activating specific points on the body, deep relaxation can be obtained while your parasympathetic nervous system initiates several healing processes. The effects can be noticed for several days after treatment with permanent results. Why is it my favorite modality? In less than five visits I can change your life! I see results when other

therapies and medical interventions fail.

SM: What other services do you offer at Natural Life Healing?

WB: I offer wellness consultations, herb and nutrition programs, as well as some advanced energy healing modalities.

SM: Who can most benefit from your healing services?

WB: Because Bowen Therapy stimulates a change in the nervous system, your body's own healing mechanisms activate, so anyone can benefit. I have seen positive results in clients with back/neck issues, carpal tunnel, fibromyalgia, hip imbalances, various injuries, and chronic health challenges.

SM: What one thing would you like potential clients to know about the work you do?

WB: The majority of people respond positively within three to five sessions. I don't treat people for weeks or months on end; I don't need to. If you have health challenges that refuse to heal, Bowen Therapy will get that process started so you have the energetic healthy body you want.

Success Magazine: William, how did you find yourself on the path of natural wellness and healing?

William Bassett: My interest in natural healing modalities began when medicine could not solve several health challenges within my family. We had children with ear infections, my wife was anemic, I had intestinal challenges, my mom is diabetic, and we have heart disease in our family. The doctors had drugs to suppress symptoms, but they could not solve our health problems. I began to look for alternatives, so I studied herbal medicine. Amazingly I could reverse the health challenges where the doctors had been unable to.

Later, while attending college, I was in a bad car accident. I suffered from

Natural Life Healing

"After the car accident I had years of back pain, neck problems, migraines, memory loss, dizziness and depression. I had tried medication, physical therapy, massage, acupuncture and chiropractic, but nothing seemed to improve my situation. I couldn't do any physical work or play with my kids. When I found Bowen Therapy I was looking for something to just lessen the pain. I got more than that... I got my life back!"

- Works quickly to activate healing mechanisms within your nervous system
- Your life can change in only 5 visits
- Anyone can benefit regardless of the health challenges that they suffer from
- Very relaxing, reduces stress and body tension
